

■ SPECIAL

A range of power levels suited to your home:
from 500 W to 1500 W, the radiator is perfectly suited to the volume of each room to bring you the best energy economy in relation to your needs.

The comfort of central heating:
its heat-conducting liquid circulation concept guarantees you gentle heat and a stable temperature. The heating body in steel gives the best heat distribution.

A refined design:
perfect finishing for the radiator, fitted with a right-hand cheek in steel covered with epoxy paint. The product has a sober and exclusive design.

A choice of 2 colours:
white or metallic grey. It will adapt to all decoration styles in your home.

Ergonomic adjustment:
for easier adjustment and viewing, the controls are at the top part of the radiator on a keyboard protected by a translucent cover. Adjusting the controls is easy, direct and intuitive.

« Intelligent » electronic regulation:
ensures a stable and precise temperature all year round in your home.

Active memory:
saves adjusted settings in the event of a power cut.

Anti-overheating safety:
the radiators are equipped with a built-in limiter thermostat, protecting the appliance against any risk of overheating.

Silent operation:
the command system is inaudible, meaning the radiator can be installed in a bedroom.

Child safety:
lockable keyboard, making any modification impossible.

Anti-tipping safety:
fixing system to independent wall fittings.
